BRIEFING

# Investing in Data and Equity in the Bay Area

May 9, 2024
Bay Area Equity Atlas

Bay Area Equity Atlas

**PolicyLink** 

#### **Session Goals**

#### Through this session, we want you to:

- Reflect: Learn more about the role of data and research justice in advancing equity in the region — and how the Bay Area Equity Atlas fills that unique need
- Examine: Delve into how data democracy supports sectors across our regional ecosystem
- Inquire: Get answers on how the Atlas can support your grantmaking, capacity-building, and strategic planning efforts

## **Agenda**

- Welcome & Introduction
- Panel Discussion

Data Democracy in the Equity Ecosystem (with Q&A)

Presentation

Centering Equitable Impact Through Research Justice

- Invitation to Partnership
- Light Refreshments & Continued Conversation

## **Speakers**

Judith Bell Chief Impact Officer San Francisco Foundation

# The Bay Area Equity Atlas continues to be a critical tool to advance equitable policies and practices.

BAEA is a tool for equitable impact.

BAEA uses a research justice model.

BAEA provides quality, responsive research.

#### **Research Expertise & Personal History**

- Immigration & "Seeing"
   Inequality: Lagos, Nigeria and San Francisco, California
- SFSU: Rooted in social change and social justice
- Research: equity, health outcomes, and immigrant inclusion

Source: San Francisco State University

# Black Immigrant Adults & Health Coverage in the US

**About** 

21%

of Black people in the US are either immigrants or their US-born children.

Source: American Community Survey microdata (2017-2021) from IPUMS USA Are the factors that shape lack of coverage for US-born Black people and other immigrant groups also true for Black Immigrants?

- Focus: Black immigrant health outcomes
- Data: National data from American Community Survey (2017-2021), imputation of documentation status
- Analyses: Series of regression models to estimate likelihood of being uninsured, net of influential factors

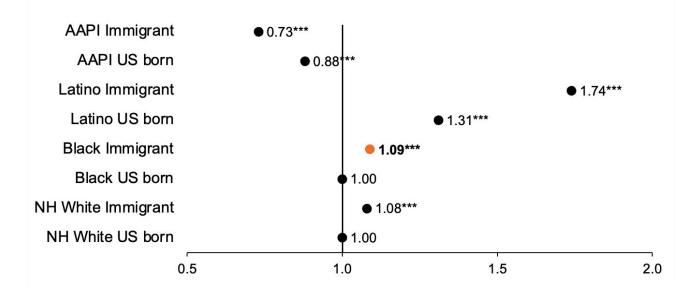

# Black Immigrant Adults & Health Coverage in the US

Black immigrants were

9%

more likely to be uninsured than US-born white people.

Source: American Community Survey microdata (2017-2021) from IPUMS USA Weighted Logistic Regressions Results Predicting the Likelihood of Being Uninsured among US-born and Immigrant Adults by Health Insurance Status, 2017–2021, N=11,343,733

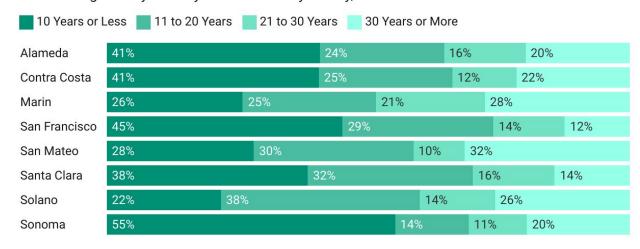

# Black Immigrants: An Emerging Regional Population

The Bay Area's Black immigrant population grew by

55%

between 2010 and 2020 — from 36,000 to 55,700.

Source: Bay Area Equity Atlas analysis of American Community Survey data from IPUMS USA Black immigrants by recency of arrival and by county, 2020

This visualization includes all residents who identify as Black, regardless of identification with other racial/ethnic groups. Data sample sizes for Napa County are too small to report.

#### **Black Immigrants & Barriers to Homeownership**

Only

30%

of Black immigrant households in the Bay Area are homeowners, compared to a majority (53%) of all immigrant households.

#### Research Series: Black Communities in the Bay Area

Diversity, Nativity, and Ancestry

Homeownership and Housing Burden

Occupational Segregation and Wages

Interactive Dashboard

## Forthcoming and Future Analyses

Affordable Housing Production and Rent

In-migration, Out-migration, and Displacement

Refineries, Air Pollution, and Environmental Racism

Surveying the Bay Area Workforce

Summary of Local Government Budgeting for American Rescue Plan Act Funds

# Strengthening Our Shared Equity Ecosystem

#### **Cross-Sectoral Systems Change**

- Connecting cutting-edge research to grassroots advocacy and community-led organizations
- Supporting local government in using data for equitable decision-making
- Challenging traditional role of community perspectives within grant-based research initiatives

"We're grateful to [the Bay Area Equity Atlas] for their efforts in making data accessible and enhancing the skills of our government staff."

— Andrea Aguiar, RacialEquity Manager, San JoseOffice of Racial Equity

## Strengthening Our Shared Equity Ecosystem

#### **For Nonprofits**

# Your grantees are our primary audience!

- Accessible data tools
- Peer trainings and direct support
- Organizational capacity-building for long-term impact

#### For Philanthropic Organizations

# Partnership in a community-driven approach to research

- Data-driven impact planning
- Expertise in equity frameworks and regional analysis
- Democratizing power that comes from knowledge
